RALEIGH, N. C., December 1, 1915.

His Excellency, LOCKE CRAIG,

Governor of North Carolina,

Raleigh, N. C.

SIR:—As required by law we have the honor to submit herewith the Fourteenth Annual Report of the State Tax Commission.

The report covers formal orders issued by the State Tax Commission during the year ending October 31, 1915, and the statistical tables cover taxes levied and collected for the year 1914.

There has been for a number of years a substantial demand in the State for the exercise of the powers of the State Tax Commission as a State Board of Equalization, based upon a wide-spread conception that there was great variance in the basis of valuation of real estate as between the several counties of the State, and to some extent in appreciation of the need for larger revenues to meet the increasing needs of a developing State. A careful analysis of returns from the assessment and listing of property for the year 1915 left no room for doubt that the time had come when the exercise of this power was a necessity, and recognizing the importance of the action taken we beg leave to outline the conditions leading to this conclusion.

The assessment of real estate was made this year to stand for and become the chief basis of revenue for the State, counties and municipalities for four years. The assessment was made as of the first day of May, during the months of May and June, at a time when agricultural and business depression as a result of the European war had reached its maximum. Every form of industry had been challenged to the closest economy. Stocks of merchandise were held at lower volume, and on the farms there had been but little purchase of stock or farming equipment for the past year. As a result of this condition there was an actual decrease in the value of personal property listed for taxation as compared with 1914. The returns from the counties of the assessment of real estate showed a slight increase as a whole, some counties showing a substantial increase, others no increase, and still others an actual decrease

in the total value of their real estate as compared with the last quadrennial assessment, and in the latter classification was included some counties that had come to be generally known as under-assessed counties, compared with assessed values in other counties. The total net result was an increase in the assessed value of real and personal property of 6.6 per cent. The General Assembly, considering with the greatest care and economy the necessities of the institutions of the State for the next two years, had made appropriations based upon an anticipated increase of 10 per cent.

By the time the returns were received and analyzed evidences were accumulating that agricultural and business depression was a temporary condition that should not be permitted to project itself into four years of the future of the State's finances.

Three courses were available:

1. To permit the valuations to stand and force the State to borrow money to meet feebly its needs for four years of running expenses.

2. To make a uniform raise in the value of real estate in all counties—adding still further to the burden of those counties that had already assessed their property on a fair basis and made a substantial increase—along with other counties that were known to have underassessed and in some instances decreased their assessments, and thus intensify and aggravate existing inequalities as between counties, or,

3. To secure the necessary increase by undertaking a general equalization as between counties, and as nearly as conditions could be ascertained to require those counties that were underassessed to bear their equal part of the burden, and thus serve the double purpose of equalizing the tax burden while making provision for a moderate increase of public revenue.

We repeat that this situation left no room for choice as to the proper course to pursue.

The Commission gave to this question two months of laborious investigation and careful thought before formulating an order that in good conscience it believed would be equitable in its general results. That order is given in full in this report. Every request for a hearing on this order was granted, and, upon the more complete information elicited by such hearings modification of the original order was made as to eight counties, as shown by supplemental order in this report.

The net increase in assessed value of real estate as a result of the equalization order is \$32,118,990. The total increase in assessed value of all property, real, personal and corporate, for the year 1915, is \$85,227,974. The increase at the last quadrennial assessment period, 1911, was 20 per cent; in 1907, 20 per cent, and in 1903, 24.9 per cent. (See last statistical table in this report, page 390.) It will thus be seen

that the net increase in assessed values is barely more than half the percentage of increase made in each quadrennial assessment since 1899, and we are confident the increase is more equitably distributed. It is extremely doubtful if the increase of 10.5 per cent will cover the actual aggregate increase by acquisition, improvement and construction for a period of four years.

In this connection we desire to call attention to the exhibits on the two pages following this letter, reprinted from a Bulletin of the United States Census Department, and commend their consideration to every citizen of the State. After all the criticism that has or can be made of our taxing system the net fact remains that under a State government administered with economy we have State institutions maintained in keeping with the progressive sentiment of the times; we have approached a six months school term in modern school buildings, and are constructing improved roads as rapidly as any State of comparable wealth and development, upon a payment of taxes in dollars and cents, for all purposes, less per capita than that of any other State in the Union, as conclusively shown by the United States Census Department.

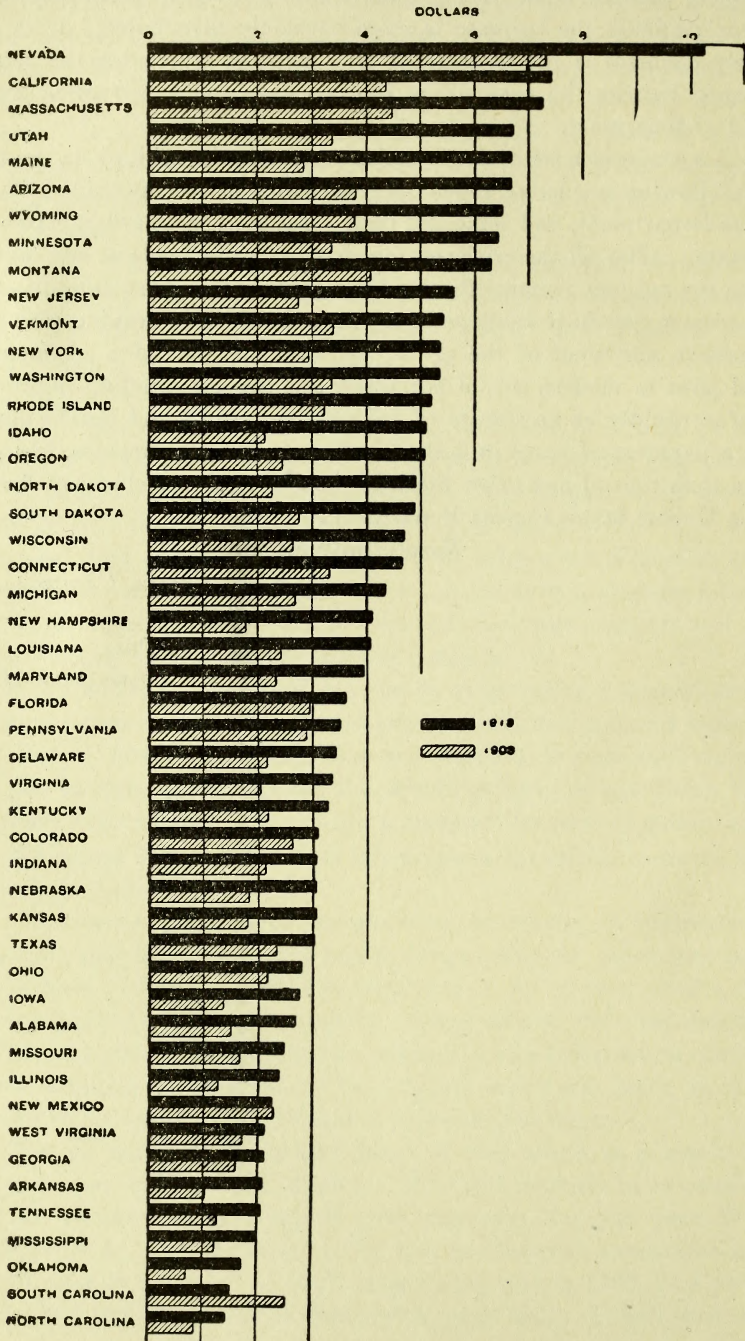

Respectfully submitted,

E. L. TRAVIS, *Chairman.*

NOTE.—The above figures are taken from Bulletin of United States Census Department on "Wealth, Debt and Taxation," 1913, page 15. The figures cover tax levies for all purposes, State, county, municipal and special, and are arrived at by dividing total tax values within the State by the amount of taxes collected for all purposes. It will be noted that only six States show a lower average rate than North Carolina, and these are States that have with most conspicuous success assessed all property at its full value, which confirms the conclusion shown on preceding page that North Carolina pays less taxes per capita than citizens of any other State.

COMPLAINTS AND DECISIONS

IN RE FRANCHISE ASSESSMENT OF CAPITAL STOCK OF THE TEXAS COMPANY

TRAVIS, *Chairman*. This was an application of the Texas Company, a foreign corporation doing business in North Carolina, for a reduction in assessment of its franchise tax under section 82 of the Revenue Act.

The said company contends that the levying of said tax, heretofore made by this Commission upon \$600,000 of its capital stock, was laid against a greater proportion of the total capital stock of the company than should be taxed by the State of North Carolina under the law as provided in said section, and that the same should be reduced.

The applicant having been heard through its attorney, Guy Stevens, Esq., it is

Ordered, That the application be, and the same is hereby denied.

IN THE MATTER OF THE EQUALIZATION OF THE ASSESSMENT OF REAL AND PERSONAL PROPERTY IN MECKLENBURG COUNTY

This matter came on to be heard upon the report of the Board of Equalization of Mecklenburg County, filed the 10th day of October, 1914, showing increases in the assessment of various real and personal property therein specified.

Appeal was taken by complainants from the assessment of the property of Belk Bros. and others, but the complainants having withdrawn all appeals made by them, and no one having appeared before us to prosecute any other appeals, it is now

Ordered, That all appeals herein be and they are hereby dismissed.

It is further ordered, That all the findings and assessments of the Board of Equalization of Mecklenburg County, as set out in said report, be and the same are hereby approved and confirmed; and it is ordered that the Board of Commissioners of Mecklenburg County have the said assessments entered upon the tax lists of said county and the taxes collected thereon according to law.

ORDER IN THE MATTER OF RECONVENING BOARD OF EQUALIZATION OF WAYNE COUNTY

It appearing to the Commission that certain property in Wayne County has been assessed unequally and not according to law:

It is ordered, That the Board of Equalization of Wayne County reconvene on Monday, August 9, 1915, for the purpose of equalizing and assessing accord-

ing to law any property that they might find assessed unequally and not according to law.

By order of the Commission.

Washington	5 per cent
Wayne	5 per cent
Wilkes	15 per cent
Wilson	10 per cent

It is further ordered, That the assessment of all real property in Pasquotank County be reduced five per cent.

The assessments as made and returned by the assessors and respective boards of equalization are approved as made in the following counties:

Alamance	Moore
Alexander	Nash
Avery	New Hanover
Brunswick	Stanly
Carteret	Stokes
Cherokee	Surry
Dare	Swain
Graham	Watauga
Lee	Yadkin
Martin	Yancey

It is ordered, That the increase made in Anson County shall not apply to the property of the Yadkin River Power Company, the property of this company having been recently specially assessed by the Board of Equalization of Anson County and raised as high as the same should properly be.

It is further ordered, That the increase in assessment in the above-named counties shall not be applied in the year 1915 to the real property of any banks or banking corporations, nor to the real property of railroad companies outside of their rights of ways, the increases in the assessment of the property of the banking and railroad corporations having been embraced and covered in the assessment of these corporations by this Commission itself. The percentages of increase ordered in these counties, however, will be applied to the real property of banks and railroads in the year 1916, and the following years.

It is further ordered, That the increase ordered to be made in real property in Richmond County shall not apply to the real property of any cotton mill company in that county.

The reports of the assessments of the property in the counties of Mecklenburg, Pender and Wake not having been completed or returned to this Commission, it is ordered that consideration of the assessments in these counties be postponed to be acted upon whenever the returns may be received.

IN THE MATTER OF THE EQUALIZATION OF THE ASSESSMENT OF REAL PROPERTY IN NORTH CAROLINA

ORDER

TRAVIS, *Chairman*. The reports of assessment of property for the year 1915 having been received from the counties of Mecklenburg, Pender and Wake, which counties were not acted upon in the general order of equalization heretofore made, and the said reports having been carefully considered by the State Tax Commission, sitting as a State Board of Equalization, it is now

Ordered, That in order to equalize the assessments in said counties with the assessments in other counties in the State, that the assessment of all real estate in said counties be increased as follows:

Mecklenburg	15 per cent
Pender	10 per cent
Wake	5 per cent

It is further ordered, That the increase in assessment in the above-named counties shall not be applied in the year 1915 to the real property of any banks or banking corporations, nor to the real property of railroad companies outside of their rights of way, the increases in the assessment of the property of the banking and railroad corporations having been embraced and covered in the assessment of these corporations by this Commission itself. The percentage of increase ordered in these counties, however, will be applied to the real property of banks and railroads in the year 1916, and the following years.

IN THE MATTER OF THE EQUALIZATION OF THE ASSESSMENT OF REAL PROPERTY IN NORTH CAROLINA

SUPPLEMENTARY ORDER

The State Tax Commission, sitting as a State Board of Equalization, having further considered the assessments for taxation of property in the counties hereinafter named, it is

Ordered, That the former order of the Commission in this matter be modified to the extent that the assessment of all real property as made and returned by the assessors and county boards of equalization in the year 1915, be increased in the counties hereinafter named as follows:

Bertie	10 per cent
Durham	5 per cent
Randolph	10 per cent
Sampson	20 per cent
Cleveland	10 per cent
Gaston	5 per cent
Richmond	20 per cent
Washington	0 per cent

IN THE MATTER OF THE EQUALIZATION OF THE ASSESSMENT OF REAL PROPERTY IN NORTH CAROLINA

ORDER

LEE, Commissioner. It now appearing to the Commission that the small decrease shown in the total assessed value of real estate in Macon County is due to the purchase by the United States Government of 61,000 acres of land, formerly assessed at about five dollars per acre, and now non-taxable, it is, therefore,

Ordered, That all the real property in Macon County be increased five per cent above the values returned by the Board of Equalization of Macon County: *Provided, however*, that the Board of County Commissioners of Macon County is hereby authorized to remit the increase of five per cent on the real estate of Highlands and Mill Shoals Townships if in their judgment they find it just and equitable to do so, the Commission being advised by its County Assessor

that the real property in these two townships is already assessed, in his opinion, upon a higher basis than the real property of other townships in Macon County.

By order of the Commission.

IN THE MATTER OF THE EQUALIZATION OF THE ASSESSMENT OF
REAL ESTATE OF MECKLENBURG COUNTY WITH OTHER
COUNTIES OF THE STATE

ORDER

This was a petition on the part of the authorities and certain citizens of Mecklenburg County, and of the city of Charlotte, in said county, that the State Tax Commission rescind its order increasing the assessment of all real property in Mecklenburg County fifteen (15) per cent in order to equalize the same with the assessment of real property for taxation in the other counties of the State.

Whether or not this should be done depends wholly upon whether or not the real estate in Mecklenburg County was assessed lower proportionately than it is in other counties of the State, and whether or not the increase of fifteen per cent was more than sufficient to put it on an equality with the other counties. In order to determine these facts, the State Tax Commission has carefully compared assessed values in Mecklenburg County with assessed values in the adjoining counties, and the assessed value of property in the city of Charlotte with the assessed value of similar property in other cities. It is well known that Mecklenburg County is one of the best developed counties in the State, and has within its borders the largest city in the State, which for years has taken a just pride in its great enterprise and growth. It has excellent railroad facilities. It was one of the first counties in the State to adopt the wise policy of constructing good roads, and it has today, and has had for a number of years, one of the best, if not the best, system of macadamized roads of any county in the State. It would, therefore, clearly appear that real estate in Mecklenburg County should be assessed, certainly as high, if not higher, than similar property in adjoining counties. Indeed, we are of the opinion, as expressed by one of the witnesses for the county, and a member of its Board of Commissioners, that real estate within Mecklenburg County, bordering on the adjoining counties, is more valuable and should be assessed higher than the adjoining property in the surrounding counties. Examining into this fact, however, we find that even after adding the fifteen per cent increase ordered by us, that the property in the border townships of Mecklenburg County is assessed a little lower instead of higher than in the adjoining townships of the other counties. For example: Mallard Creek Township, in Mecklenburg County, assessed at \$10.06 per acre, adjoins Poplar Tent Township in Cabarrus County, assessed at \$11.06 per acre. Dewesse Township, in Mecklenburg County, is assessed at \$11.63, and adjoins Coddle Creek Township, in Iredell County, which is assessed at \$15.95 per acre. Lemley Township, in Mecklenburg County, assessed at \$9.66 per acre,

adjoins Davidson Township, in Iredell County, assessed at \$9.90 per acre, and Catawba Springs Township, in Gaston County, assessed at \$9.83 per acre. Long Creek Township, in Mecklenburg County, assessed at \$9.48, and Paw Creek Township, assessed at \$11.70 per acre, adjoin River Bend Township, in Gaston County, assessed at \$12.59 per acre. Berry Hill Township, assessed at \$10.84, and Steel Creek Township, assessed at \$11.71 per acre, in Mecklenburg County, adjoin South Point Township, in Gaston County, which is assessed at \$14.10 per acre. Providence Township, in Mecklenburg County, assessed at \$10.58, adjoins Sandy Ridge Township, in Union County, assessed at \$10.88 per acre. Crab Orchard, Clear Creek and Morning Star townships, in Mecklenburg County, are assessed slightly higher than the adjoining townships in Union County and Cabarrus County.

The average assessment per acre of all the townships in Mecklenburg County, bordering on other counties, after adding the increase ordered by this Commission, is \$10.86 per acre. The average assessment of all the townships in the adjoining counties of Union, Cabarrus, Iredell, Lincoln and Gaston, which border on Mecklenburg County, is \$10.93 per acre.

Examining into the assessment of real property in Charlotte, and comparing it with similar property in the city of Raleigh, we find the following result: That the assessed value of the Commercial National Bank building in Charlotte is \$112,000. The cost of this building reported to us by that bank was \$371,817, the assessment being 30.1 per cent of this amount. The Citizens National Bank building in Raleigh is assessed at \$111,500, and cost \$180,000, the assessment being 62 per cent of its cost. The building of the American Trust Company, of Charlotte, is assessed for 1915 at \$31,600. It cost \$133,934, and is assessed at 23.6 per cent of that cost. The Commercial National Bank building, of Raleigh, is assessed at \$135,000, and cost \$280,000, the assessment being 49 per cent of the cost.

It has come to the notice of this Commission in various ways during the last two or three years, that real property in Mecklenburg County was assessed at about thirty per cent of its actual value, and much lower than in the other counties of the State.

In 1914, upon complaint made to this Commission by the Board of Education of Mecklenburg County of the unequal and inadequate assessment in Mecklenburg County, the State Tax Commission ordered the Board of Commissioners of Mecklenburg County to reconvene for the purpose of reassessing and equalizing real property in that county. The Board of County Commissioners met pursuant to this order, on the 12th day of May, 1914, and it was reported by the *Charlotte Observer* that one of the first things done was to agree to the equalization of all real estate upon the basis of 30 per cent of its actual value. Mr. McDonald, the present chairman of the Board of Commissioners, who was at that time a member of the board, stated that he did not recall such an agreement by the board, and that he did not think any such agreement was made at that time. Examination into the report and assessments made by the board, however, disclosed the fact that whether such an agreement was really entered into or not, the equalization was in truth made upon that basis. For example: We find from the report made by them to this office that in equalizing what they describe as the Vinton Liddell lot, on North Tryon street, they recited: "That Scholtz purchased the Vinton Liddell lot on North Tryon street for \$10,000 in August, 1911; that for the year 1911 said Liddell lot be assessed at \$2,400. It is ordered by the board that

the Liddell lot be assessed for the years 1912, 1913 and 1914 at \$3,000." It will be seen that this is 30 per cent of the purchase price. In the same report, they raise the assessment of the Thos. Griffith land, and in their report say: "It appearing to the board that the sixteen acres of land owned by Thos. Griffith in Seversville was assessed for the year 1911 at \$800, 1912 at \$320, 1913 at \$320, and that said land was sold in the year 1912 for \$10,000, it is ordered by the board that it be assessed for the year 1913 at \$1,800, and for the year 1914 at \$2,000." It will be seen that the board put this property at only twenty per cent of the price for which it had sold in 1912.

It also appears from said report that said board found that the property of Tillett Brothers, on East Sixth street, was assessed for the year 1911 at \$3,500; that said property was sold in the year 1912 for the sum of \$22,500, and that improvements had been placed thereon to the extent of \$2,000. The board, therefore, increased the assessment of that property for the year 1914 to \$5,500, which is only 22.4 per cent of what it had sold for.

We note also that they raised the assessment of the realty building of the Independence Trust Company for 1914 from \$85,000 to \$90,000. This property cost \$335,894. The assessment, therefore, was 26.7 per cent of its cost.

We are fully warranted in assuming that these assessments represent the general basis of assessment obtaining in the city of Charlotte and Mecklenburg County, for the reason that in making these particular assessments, the Board of Commissioners were changing them for the express purpose of putting them on an equality with other real property in the city and county. It is to be assumed, therefore, that the values which they placed upon them were as near in accord with the general basis obtaining in that county as they could make them.

It appears to us that these facts, which are not controverted, clearly show that real estate in Mecklenburg County is assessed at about 30 per cent of its actual value. This is a great deal lower than the basis of assessment in any other county in the State, with two or three exceptions, and this Commission could not, consistently with its duty as a State Board of Equalization or in justice to the other ninety-nine counties of the State, permit this unequally low assessment to continue.

The contention was made that the officials of the county had increased the assessment of real estate in Mecklenburg County in amount \$2,884,528, or 19.2 per cent, and that for this reason the raise should not be made. We find, however, from reports published in the *Charlotte Observer*, that the building permits issued by the city of Charlotte for the years 1911, 1912 and 1913 amounted to \$3,250,000. It will be seen, therefore, that the increase in assessment in the entire county does not equal the new construction of buildings made in the city of Charlotte alone. Comparing this with the increases made in other large counties of the State, we are of opinion that it does not represent as much increase as the county of Mecklenburg should show. We find that Buncombe County increased \$2,825,000; Durham County \$2,782,000; Forsyth County \$2,565,000; Guilford County \$2,537,000; New Hanover County \$4,640,000; Wake County \$4,047,000. In this connection, it must be borne in mind that Mecklenburg County, being already on a lower basis than the other counties named, should have increased much more than they did in order to have brought about equality.

One of the distinguished counsel in this proceeding announced to the Commission that without reference to the facts in the case, he objected strenu-

ously to any raise which this Commission might make, and would resist it by every possible means. The Commission understood his objection to be upon the broad ground that the exercise of any State authority in the matter would be resented, and that every county should, in his opinion, be permitted to be a law unto itself as to the amount of taxes which it should contribute to the State. It appears to us that Mecklenburg County itself presents a most striking example of the wisdom of and necessity for the exercise of the power of the State Tax Commission to equalize assessments as between the counties.

Not only have the authorities of that county failed heretofore to assess its property equally with that in other counties, but even now, after the facts are clearly shown to them, they vehemently resist any raise whatever. Evidently, if left to themselves, they would continue to pay State taxes on a basis of 30 per cent, while other counties paid on a basis twice as high, a thing which outrages every sense of right and justice. There is no sound or sacred reason why the citizens of Mecklenburg County should be permitted to contribute to the common treasury of the State on a 30-per-cent basis while the citizens of other counties are required to contribute on a basis twice as high. There is no more reason why a particular county should be a law unto itself in deciding how much it will contribute to the State Treasury as compared with other counties, than there is why a particular township in a county should be a law unto itself in deciding how much it should contribute to the county treasury, or why each citizen of the State should be a law unto himself and determine how much he will pay to the several divisions of the government.

The State Tax Commission has dealt patiently and considerately with Mecklenburg County in this matter; we have exhausted every other means to bring about an equality of assessment with other counties before resorting to the exercise of the power conferred upon us. In 1914, when complaint was made to this Commission of the unequal and inadequate assessments in that county, this Commission reconvened the Board of Commissioners of Mecklenburg County and gave them full opportunity themselves to make the proper correction. It has already been shown herein that after being reconvened, they followed a basis of assessment very much below that of other counties.

Before the beginning of the present assessment, this Commission appointed as County Assessor the man recommended by the Board of Commissioners of Mecklenburg County, and had a personal conference with him, in which it was urged upon him the necessity of raising values in Mecklenburg County so as to put it on an equality with other counties. The county authorities were granted every indulgence in respect to time and opportunity to make the assessment of 1915, and were permitted to continue their work for a month longer than the time fixed by statute, and their final returns did not reach this office until some time in September. When this report was received, it disclosed the fact that the local authorities had not materially increased the former low basis of assessment obtaining in that county. It, therefore, became necessary for the State Board to exercise its power of equalization.

It was urged at the hearing that this raise should not be made on account of the depressed conditions existing in Mecklenburg County at this time. These conditions, however, are not peculiar to Mecklenburg County, but prevail all over the State, and while they would be a proper argument against any increase of taxation not absolutely necessary, they are not an argument against an in-

crease made for the purpose of equalization, but on the contrary, there is no time when it is more essential and just that every county should bear its fair and equal proportion of the burden of taxation than when that burden is pressing heavily upon all. There is no time when the other counties of the State could more justly call upon Mecklenburg County to bear her equal part of the load than when that load is heaviest.

It was urged at the hearing that no more tax should ever be imposed than is absolutely necessary for the support of the government, economically administered. With this sentiment, the State Tax Commission thoroughly agrees, and in administering the tax laws of the State, and especially in making the assessments of this year, it has kept this steadily in mind and been guided by it. The State Tax Commission has given all the consideration it possibly could to the depressed conditions existing in the State in making the assessment of 1915. We have carefully ascertained and kept well in mind the needs of the State for the next four years, and the increased assessment in the State this year, including the raise made by the State Tax Commission, is no more than will be absolutely necessary to meet the expenses of the State. That increase has been made less than at any four-years period in the past sixteen years. The increase made in the assessment of real estate in 1903 over 1899 was 32.7 per cent; in 1907, the next assessing period, it was 30.3 per cent; in 1911 it was 32.5 per cent over 1907, and the present year, 1915, it is 14.7 per cent over 1911. In 1911, the amount of increase made in the assessment of all real estate was \$93,474,621. In 1915, the amount of increase in the assessment of all real estate, including the raise made by this Commission, is \$56,274,755.

The last General Assembly of North Carolina exercised the greatest possible economy in its appropriations. We do not believe that any other Legislature which ever assembled here exercised so much care to see that not one dollar more was appropriated for any purpose than was absolutely necessary. It was estimated that in order to meet these economical appropriations there would have to be an increase in the assessments of all property over the assessment of 1914 of not less than ten (10) per cent. The assessment as now completed shows an increase of eleven (11) per cent.

The appeal was made to this Commission at the hearing that in making this equalization it temper justice with mercy. We feel that we have already done so in not making the raise of Mecklenburg County more than 15 per cent. We are convinced that any mistake which we may have made in the matter has been made on the side of mercy toward Mecklenburg County. We fear the raise is not sufficient to put them on an equality with other counties of the State, and we believe that the other ninety-nine counties of the State would feel that we had treated them unjustly if we rescinded or reduced the raise which we have ordered. It is, therefore,

Ordered by the Commission, That the petition of Mecklenburg County be dismissed.

IN THE MATTER OF THE EQUALIZATION OF ASSESSMENTS IN
WILKES COUNTY

ORDER

Application having been made to the State Tax Commission to modify its order increasing the assessment of real estate in Wilkes County 15 per cent, so that such increase would not apply to North Wilkesboro Township; and it being represented that the real estate in North Wilkesboro Township is assessed proportionately higher than in other townships in the county, and the State Tax Commission being of opinion that the County Board of Equalization is in better position to examine into and ascertain the facts in respect to this matter than is this Commission, it is, therefore,

Ordered, That the Board of Equalization of Wilkes County be and they are hereby ordered to reconvene, at such time as may be convenient to them, within thirty days, for the purpose of considering the application above referred to, and they are authorized and empowered, if they find that the real estate in North Wilkesboro Township is in fact assessed unequal and higher than the real estate in other townships of the county, and if in their judgment and discretion it would be right and just to do so, to relieve North Wilkesboro Township of the 15 per cent increase ordered by the State Tax Commission, or of such part of said increase as they may think is equitable. The power of said board to relieve from said 15 per cent increase, or any part thereof, is restricted to North Wilkesboro Township only.

IN THE MATTER OF ASSESSMENT OF TRANSMISSION LINES OF
YADKIN RIVER POWER COMPANY AND CAROLINA
POWER AND LIGHT COMPANY

This is an application of the Yadkin River Power Company and Carolina Power and Light Company to the State Tax Commission to relieve the transmission lines of these two companies from the horizontal increases ordered by the State Tax Commission to be made in the several counties through which these transmission lines run.

Before the assessments of the present year were made, application was made to the State Tax Commission to find a uniform valuation of these transmission lines, to be applied in all counties, so that this property, being of the same value in all the counties, would be assessed the same in all the counties. The State Tax Commission did this, and in doing so made thorough inquiry as to the cost and value of these lines in order to ascertain what the proper assessment of same would be per mile, and raised the valuation of the different lines more than 33½ per cent.

The Commission raised the valuation of single circuit pole lines from \$700 per mile to \$1,200 per mile; single circuit steel tower lines from \$1,200 per mile to \$1,700 per mile, and double circuit steel tower lines from \$1,800 per mile to \$2,400 per mile.

It appears that these valuations were adopted and followed in all the counties through which these lines run.

It appeared that by applying in some of the counties a raise of 20 per cent, in some a raise of 10 per cent, and in some counties no raise at all, it would

result in creating inequality instead of equality, and that the same property of the same value would therefore be assessed 20 per cent higher in some counties than in others. To the end that equality of assessment in regard to these transmission lines may be preserved, it is

Ordered, That the horizontal increases ordered by the State Tax Commission on real estate in the counties through which the transmission lines of these companies run shall not be applied to the transmission lines of the Yadkin River Power Company and the Carolina Power and Light Company.
